Dear Ivan,

Testimonial for IPDataComm Ltd

When you don't really understand I.T, it is great to have someone you can really trust around the office who is thinking of your business as if it were their own.

IP Data Comm are part of our team. The service they provide to us is just like we employ an I.T Manager. We don't need to worry about our business continuity as IP Data Comm are always on hand at short notice to take care of any eventuality.

I am grateful for the fact that they think about our business needs in advance, future - proofing any purchase that we make to ensure its suitability for us as we grow.

IP Data Comm consider our budget when making I.T decisions to help us find cost effective ways of reaching our aspirations.

We find their service both very valuable and effective and would highly recommend them.

Yours sincerely

Celia Hodson
